Lisseth Fuentes
Software Development and Management Engineering

📞 7771680188   ✉ georginafuentesfigueroa@gmail.com   📍 Emiliano Zapata, Morelos.

ACADEMIC BACKGROUND

Engineering in Software Development and Management
Universidad Tecnológica Emiliano Zapata de Morelos
(2023 – 2025)
11th Quarter

TSU in Multiplatform Software Development
Universidad Tecnológica Emiliano Zapata de Morelos
(2021 – 2023)
Professional License: 14192469

SOFT SKILLS

- Adaptability
- Proactivity
- Innovation
- Initiative
- Effective communication
- Attention to detail

TOOLS

- G-suit
- Vue js
- Springboot
- Cypress
- Node js
- Alexa skills

LANGUAGES

- Spanish (Native)
- English (B1)

HARD SKILLS

- CMMI
- MOPROSOFT

ABOUT ME

I am a **curious, creative, and proactive** person with skills in **Quality Assurance, Continuous Integration and Delivery**, and **full-stack development**. I have contributed to the structuring of the Software Quality area at the UTEZ Software Development Center, optimizing processes and methodologies.

I am driven by **innovation** and **continuous improvement**, providing **efficiency and quality** in each project.

WORK EXPERIENCE

Quality Assurance | Devops
September 2023 – February 2025

Centro de Desarrollo de software | Universidad Tecnológica Emiliano Zapata

Activities

- **Drafting and execution** of test plans and reports for internal systems, including school management, continuing education, administration of cultural and sports workshops, and the university's job board. Additionally, I contributed to external projects, conducting tests for technological solutions for the Morelos Hotel Group and the University of Legal Sciences of Morelos.

Achievements

- **Consolidation of the QA area,** contributing to the **design and implementation** of quality assurance processes from early stages.
- Creation of standards and key documentation to **optimize workflow** and improve efficiency in error detection and reporting.

Analyst Developer and Quality Assurance Balu Events Management System
September – December 2024

Balu devs | Universidad tecnológica Emiliano Zapata

Activities

- **Development of microservices** for resource types, event consultation, event statistics, and event tracking.
- **Test automation** using Cypress**.**
- **Deployment** on a server using **Jenkins** and **Docker.**

Achievements

- **Reduced testing times by 40%** compared to manual testing.
- Integration and continuous deployment of approved modules.

Analyst Developer | Balu Cafeteria Module Inclusive Catalog with Alexa Skill for Users with Visual Impairments
May - August 2024

Balu devs | Universidad tecnológica Emiliano Zapata

Activities

- **Development and integration of an Alexa Skill** to improve the accessibility of the product catalog, allowing visually impaired users to explore it.
- Optimized the system architecture for a smooth and efficient interaction with Alexa
